

System Cine 50

SKU: 6026

- Heavy duty Sachtler Cine System
- Supports camera setups from 10 - 50kg (22 - 110 lb)
- 18 steps of counterbalance
- 9 steps of pan and tilt drag
- Sideload platform
- Long single stage heavy-duty aluminium tripod
- Ground spreader, and front pan bar included

PRODUCT DESCRIPTION

When super smooth movements are non-negotiable, the Sachtler Cine 50 rises to the occasion. The smallest and lightest in its class with an operating temperature range of -40 °C to +60 °C (-40° to 140°F), this fluid head supports up to an impressive 50 kg payload, making it the go-to choice for cinematographers facing the toughest conditions.

Counterbalance with 18-steps ensures your camera is quickly balanced and consistently supported at any angle, while the Sideload platform ensures simple and secure setup for accessorised Cine cameras. Customise your camera position with an ARRI compatible camera plate and front box mounting points.

Crafted with precision engineering and robust materials, the Cine 50 is built to withstand the rigours of Cine production. The frictionless fluid drag with nine levels of drag guarantees smooth and seamless pans, and a front pan bar helps to deliver extra control.

In this system the powerful Cine 50 is combined with a single stage aluminium tripod. The Sachtler Cine 150 long heavy-duty aluminium tripod gives you consistent performance, even with high payloads. The aluminium construction and large spikes mean that it is completely stable, and you can secure the tripod firmly in place using the integrated tie down hooks. Stability is matched by simplicity; the Cine 150 tripod is quick and easy to use. Extra-long rotary brake clamps mean that height adjustment is accessible even in cold conditions while wearing gloves. The system includes the robust Cine ground spreader with foot operatable slide adjustment.

Unleash unparalleled smoothness in every shot, regardless of the size of your rig with the Sachtler Cine 50 System.

TECHNICAL SPECIFICATIONS

Range	Cine
Bowl Size	150 mm
Interface Compatibility	Sideload
Spreader Type	Ground spreader
Material	Aluminium
Payload	10 kg to 50 kg 22 lb to 110.2 lb
Counterbalance	18 counterbalance steps
Drag	9 + 0 drag settings
Weight	23.4 kg 51.6 lb
Tripod Stages	1
Pan Bar Count	1
Sliding Range	15 cm 5.9 in
Tilt Range	+90° to -60°
Temperature Range	-40 °C to 60 °C -40 °F to 140 °F
Level Bubble	Yes, illuminated
Adaptor Viewfinder Extension	Included Adaptor
Height	106 cm to 196 cm 41.7 in to 77.2 in
