

# MV88 USB-C STEREO MICROPHONE

## OVERVIEW

Conveniently portable and immensely versatile; the MV88 is the easiest way to take your audio to the next level when recording on your phone. Simply plug the MV88 directly into the USB-C port on your device and configure your audio in the free Shure MOTIV™ Video or MOTIV Audio apps before you hit record. Choose from four selectable polar patterns depending on what you're recording, and further dial-in your sound with powerful audio processing, including our renowned Auto Level Mode and powerful Real-time Denoiser. A plug-in mic that does it all – and captures it all.
